PATIENT INFORMATION

A GOOD START FOR YOU AND YOUR BABY – EVEN BEFORE BIRTH

OUR GOAL IS TO ACCOMPANY YOU ON YOUR GOOD JOURNEY AS A FAMILY.

PERHAPS...

... you need a birth preparatory course?

... you are looking for a midwife for childbed care?

... you would like support in your everyday life?

... you have questions about applications or how to deal with the authorities?

... the excitement about your child is being burdened by worries?

... you would like to get in touch with other mothers and fathers?

In order to get to know you better, we kindly request you to fill in the enclosed **questionnaire** as completely as possible. We will be happy to fill out the questionnaire together with you when you register for the birth. This information is meant to help us get a better idea of **how we can support** you. In this way, we can provide you with the help that suits you best.

With your consent, the completed questionnaire will be forwarded to us, the Babylotsen. It goes without saying that we will treat your personal data with strict confidentiality. If during the evaluation of your questionnaire we discover that there is need for clarification, we will contact you in hospital after the delivery of your child.

Through personal consultation with you, we will determine **the type of support** you want and need. We will gladly make arrangements for the selected offers and also arrange an initial appointment for you.

Participation in our offer is voluntary, free of charge and does not require much of your time and effort.
